As a respected business leader and advocate for the well-being of our community, we are requesting that your company make a donation in support of the Vancouver International Piano Festival by People with Disabilities.

The Festival

The Second Vancouver International Piano Festival by People with Disabilities 2009, is an international piano music festival for pianists who are either physically or mentally challenged. These pianists express their feelings through piano music and share the joy of performance with a welcoming audience.

Your Donation

We are seeking your support to raise \$100,000 for the prize money for disabled pianists, printing and advertising costs, and to establish the beginning of a scholarship fund for promising pianists. Your donation of \$200 or more will benefit pianists with disabilities in our country and around the world.
